

Recruit One Assistant Professor

Unit for Advanced Data Analysis and Modeling for Super Smart Society (tentative),
Research Institute for Science and Technology

Position:

Assistant Professor

(Unit for Advanced Data Analysis and Modeling for Super Smart Society (tentative),
Research Institute for Science and Technology)

Specialty:

Pioneering a new research field on social and economic phenomena from the viewpoint of statistical mechanics. Considering the similarities between the social phenomena and the molecular kinetic theory, construction of various microscopic models is required to reveal macroscopic behavior of the social systems on the basis of the big data analysis.

Affiliation:

Unit for Advanced Data Analysis and Modeling for Super Smart Society (tentative),
Research Institute for Science and Technology*1

Department of Mathematical and Computing Science, School of Computing *2

Qualifications:

Applicants are required to hold a Ph.D. degree in Physics and to be committed to the above project.

Starting Date:

April 1st, 2016 or earliest date thereafter.

Employment Status:

Full time, 5 years (No reappointment)

Salary:

Annual salary will be paid according to the National University Corporation Tokyo Institute of Technology Regulations on Wage and Salary for Staff on the Annual Salary System.

Application Documents:

1. Curriculum vitae.
2. List of publications. Mark your major publications up to three.
3. Reprints or copies of your major publications up to three.
4. The summary of your previous works and the plan for the future research (up to two letter size pages in Japanese).

5. Contact information including name, affiliation, and email address of two reference persons.

Application Deadline:

The application should arrive no later than January 12th, 2016.

Submission:

Send both the printed documents and a CD-ROM (or a USB memory) with the pdf files, to the following address by registered mail with the notice "Application for Assistant Professor in Unit for Advanced Data Analysis and Modeling for Super Smart Society" written in red on the envelope.

Send to:

Secretary of Faculty Office, Department of Computational Intelligence and Systems Science Interdisciplinary Graduate School of Science and Engineering, Tokyo Institute of Technology, Suzukakedai Campus: 4259-G3-54 Nagatsuta-cho, Midori-ku, Yokohama 226-8502, Japan

E-mail: jim@dis.titech.ac.jp

Contact:

Department of Computational Intelligence and Systems Science, Interdisciplinary Graduate School of Science and Engineering, Tokyo Institute of Technology

Associate Professor, Misako Takayasu

Phone number: +81-45-924-5207

Email: jim@dis.titech.ac.jp

Notes:

Tokyo Institute of Technology values a diverse workforce and welcomes applications from all sections of the community.

The application materials will not be returned. In accordance with Tokyo Institute of Technology guidelines, personal information will be used solely for this recruitment and not for any other purpose.

In the selection process, interview for a few applicants might be required. The applicant is required to pay the traveling cost for the interview.

*1: Tokyo Institute of Technology is formulating a new research system and launches a new institute called Research Institute for Science and Technology from April 2016. .
